Homework #1

The following assignment will be discussed in the meetings on 6 Feb. 2007. Students are expected to attend the meeting prepared (read/discuss the material and solve the problems). I shall not collect the assignments but I shall evaluate the individual efforts in oral discussion.

The first part contains the preliminary reading and simple questions on topics you studied in previous courses.

1. read Ch. 1 and work out the first 10 problems Ch.1: 1.1-1.10

Second part is on Traffic calculations:

2. read Sec 3.6. and Erlang B Lecture 1 (in course contents) and using (if you wish) the Erlang B tables provided in course contents/documents, work out two problems, Ch.3: 3.15 and 3.26.
